

# TAKE 5 | iQ® GRANIT™ SD – STATIC-DISSIPATIVE FLOORING

## FACE THE FACTS:

Losses from electrostatic discharge (ESD), ranging from \$500 million to \$5 billion annually, underscore the importance of ESD management. These losses can come from damaged equipment, reduced product reliability, and costly downtime. Protecting against ESD is essential for safeguarding data, operational efficiency, and financial stability.

Static electricity not only affects electronic components, but it also attracts dust and other contaminants. These can lead to increased cleaning needs and potential contamination in environments like clean rooms or production areas, where cleanliness is critical.

Static dissipative flooring is designed to conduct static electricity away from individuals and equipment, thereby reducing the risk of static buildup. This helps prevent static shocks and minimizes the risk of sparks that could lead to explosions, especially in environments with flammable substances.

Selecting the right flooring can protect companies' assets, improve workplace safety, and potentially reduce overall maintenance and repair costs.

---

## DID YOU KNOW?

Tarkett iQ Granit SD is a permanently static-dissipative vinyl flooring for use in heavy-traffic laboratories, clean rooms, and ESD-sensitive areas in hospitals. It delivers the perfect combination of stable and reliable conductivity alongside the proven durability of the iQ flooring range.

- Permanently dissipative to add safety for people and equipment.
- Proprietary iQ technology requires no wax or refinishing - ever. For the life of the floor, surfaces are continuously restored to their original appearance with simple dry buffing.
- Highly flexible material easily forms integral cove base without cracking to support infection control protocol.
- Resists stains, scratches, and chemicals
- Available in both sheet and tile formats.
- Specially designed to coordinate with other products and accessories of the iQ Granit multi-solution family.
- The Tarkett Solution SPECTrum™ is a comprehensive flooring portfolio that helps you coordinate designs across lobbies, labs, offices, and corridors.

## SUSTAINABILITY ATTRIBUTES

### iQ GRANIT SD

#### Carbon neutrality:

Carbon neutral available upon request

#### Healthy materials:

94% raw materials third-party assessed; ortho-phthalate-free

#### Indoor air quality:

FloorScore® certified; CDPH 01350 v1.2

#### Transparency documents available:

Material Health Statement

#### Responsible end of use management:

Part of Tarkett's ReStart® take-back and recycling program

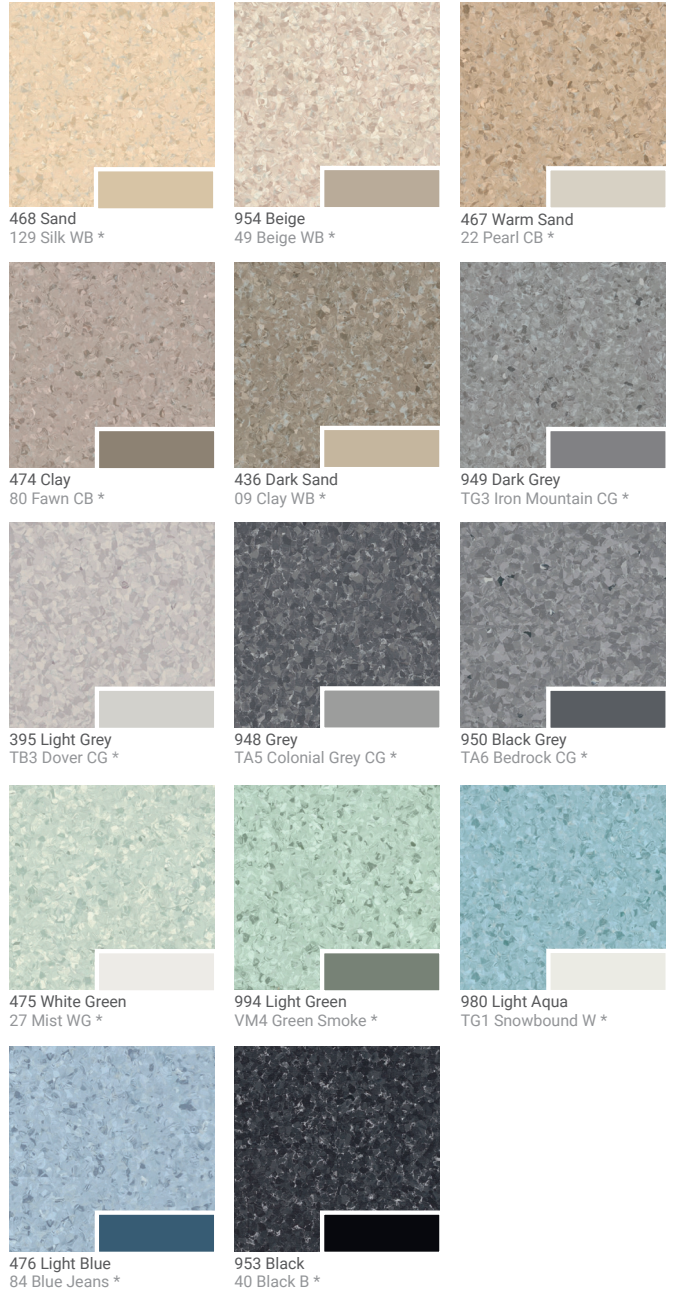

CERTIFIED BY  
SCS Global Services

# COLOR PALETTE

iQ Granit SD 395 Light Grey, 475 White Green, 476 Light Blue, 949 Dark Grey

## APPLICATION ADHESIVES

### iQ Granit SD sheet

- Tarkett 925 adhesive
- Tarkett 906 conductive adhesive (apply to copper strips only)
- Copper ground 100' coil

### iQ Granit SD tile

- Tarkett 906 conductive adhesive
- Copper ground 100' coil

**000 Color Name**  
000 Coordinating Color

**Wall base coordinates key**

\* We've identified Color Foundations® neutrals in the following way:  
**WB** (Warm Beige), **CB** (Cool Beige), **WG** (Warm Grey), **CG** (Cool Grey),  
**B** (Black), **W** (White).

\* Suggested colors for finishing borders (wall base).  
Coordinated Johnsonite® Accessories are a printed approximation.  
Please refer to the Color Guide for accurate color representation.

## COORDINATED SOLUTIONS

Tarkett's family of iQ Granit Specialty solutions is designed for spaces that require an elevated level of comfort and performance. From controlling static, to softening acoustics, to mitigating risk of slip-and-fall accidents, our resilient specialty surfaces enhance the safety and performance of your most critical spaces—while minimizing the time and effort required to maintain them.

**iQ Granit Acoustic** reduces impact sound to support better outcomes for everyone in the space.

Evidence-based design research shows that quieter healthcare settings improve clinical efficiency, diminish stress, and support the healing process. Student performance also increases with dampened noise levels, including memory retention, motivation, reading ability, and test scores.

**Granit Safe.T** is a durable flooring solution for heavy-traffic and wet areas where slip-and-fall accidents are a concern. The additional traction provides a confident grip in lobbies and for bare feet around patient showers. With a protective finish, the surface is safe from stains and is easy to maintain.

**iQ Granit Acoustic** 160 Light Grey, 370 Aqua, 369 Light Aqua, 412 Olive

**Granit Safe.T** 633 Soft Brick, 571 Soft Pale Brick, 507 Light Sand, 513 Clay

ReStart is Tarkett's third-party certified reclamation program.
