

iQ[®] Optima[®]

HOMOGENEOUS VINYL SHEET + TILE

 **Tarkett**

Never refinished. Always restored.

Tarkett's iQ® Optima® promises no need for floor finish. Ever.

A simple dry buffing restores iQ Optima homogeneous flooring to its original appearance, practically keeping it forever young. With the unwavering durability of Tarkett's iQ technology, environmental services teams are able to work more efficiently, with fewer chemicals and better indoor air quality.

The refreshed iQ Optima palette delivers a classic travertine pattern in soft, tonal colorways that support overall health and wellness. The entire collection is CERTIFIED **asthma & allergy friendly**® to create safe, inclusive spaces in every step.

From every angle, Tarkett's iQ Optima is a pretty smart choice.

ON COVER: iQ Optima 841 Green Grey, 843 Light Green, 995 Blend Green, 996 Blend Sand

RIGHT: iQ Optima 201 Soft Dark Cool Grey, 762 Medium Cool Grey, 851 Light Blue, 855 Medium Blue, 869 Dark Blue, 872 White Grey

iQ Optima 760 Light Grey White, 799 Light Black, 927 Brick Orange, 946 Soft Light Grey, 983 Soft Blue

iQ for life-long performance

Intelligent quality for the most demanding environments

Beyond their soothing aesthetics, iQ products are scientifically engineered to retain their beauty over time, support better indoor air quality, and simplify care and maintenance. Because iQ surfaces are paired with weld rods that allow thermo-fuse heat welded seams, they also provide superior infection control. With no floor finish required for life, iQ flooring is continually restored with a simple dry buffing—so your floor, your space, and your people can maintain top performance.

iQ surfaces provide:

Durability

Excellent durability against scratches, scuffs, stains, chemicals, gouges, and tears

Broad portfolio

A broad selection of colors and visuals to support the design of any space

Static load limit

Strength to withstand heavy equipment and rolling loads

Indoor air quality

CERTIFIED **asthma & allergy friendly**® solutions that are easy to clean without harsh chemicals to further support better indoor air quality

(iQ Optima, iQ Granit, iQ Eminent)

Hygiene & infection control

Highly flexible material creates an integral cove base that prevents cracks where pathogens can hide

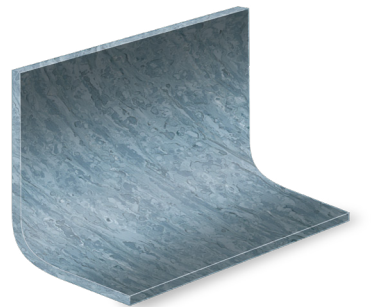

Life cycle cost

Continuously restorable surfaces without application of floor finish to reduce maintenance costs and optimize return on investment

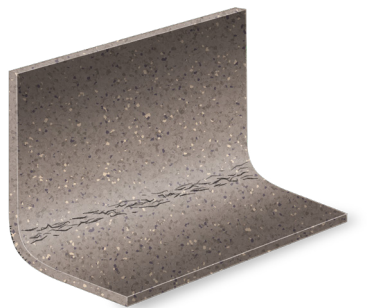

Surface restoration video

Stain resistance video

Flexible iQ Optima material minimizes cracking and micro-fissures

Higher filler content in competitive products leads to cracking

Coordinated solutions

Tarkett's family of iQ solutions delivers safety and performance with a cohesive color palette. iQ Granit SD is permanently static-dissipative for use in laboratories, clean rooms, and ESD-sensitive areas in hospitals. Granit Safe.T provides a confident grip in wet and high-traffic areas.

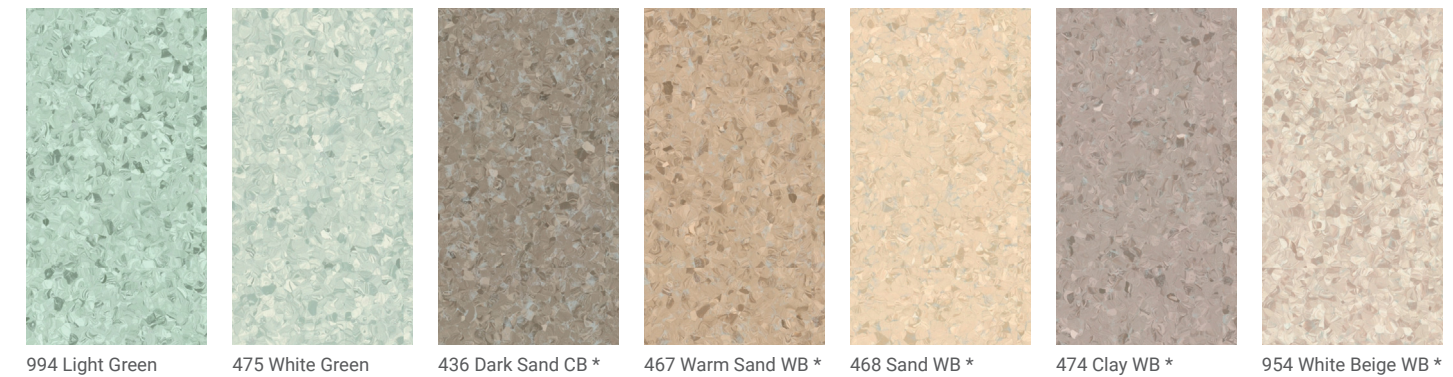

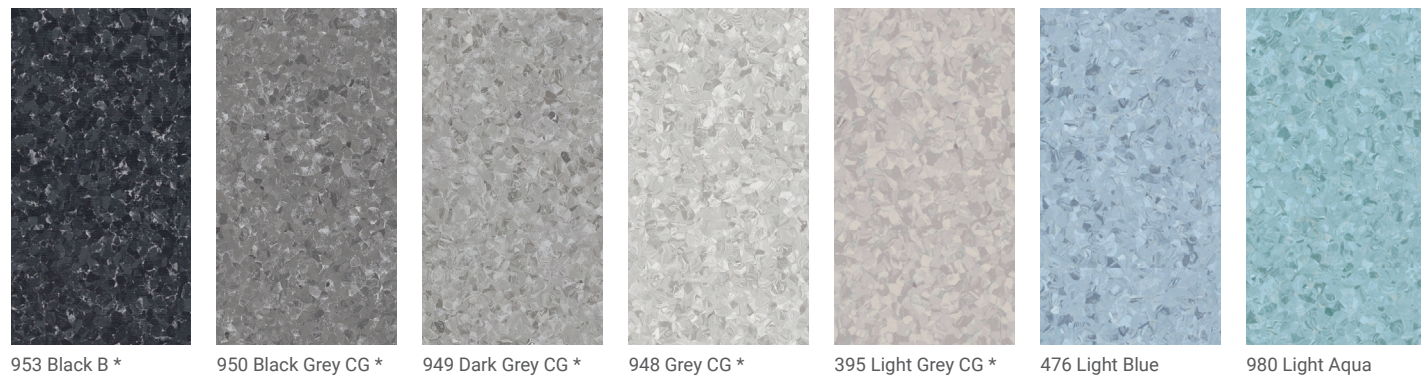

Color Foundations®: It's easy to coordinate Johnsonite products with a wide range of flooring choices from the Tarkett portfolio. Color Foundations gives you six neutral palettes that pair popular Johnsonite colors with hundreds of flooring options for Soft Surface to Resilient. We've done the color-coordination for you. Just pick your palette and go!

Palette Key: **WB** (Warm Beige), **CB** (Cool Beige), **WG** (Warm Grey), **CG** (Cool Grey), **B** (Black), **W** (White).

Tarkett Solution SPECTrum™

Design more brilliantly.

At Tarkett, we believe in placing people in the center of every space. So we've developed a portfolio of products designed to work together both functionally and aesthetically, helping you create more supportive spaces that maximize return on investment. Our full palette of colors, patterns and textures is coordinated to work together visually across product categories—creating the perfect balance for people, planet and performance.

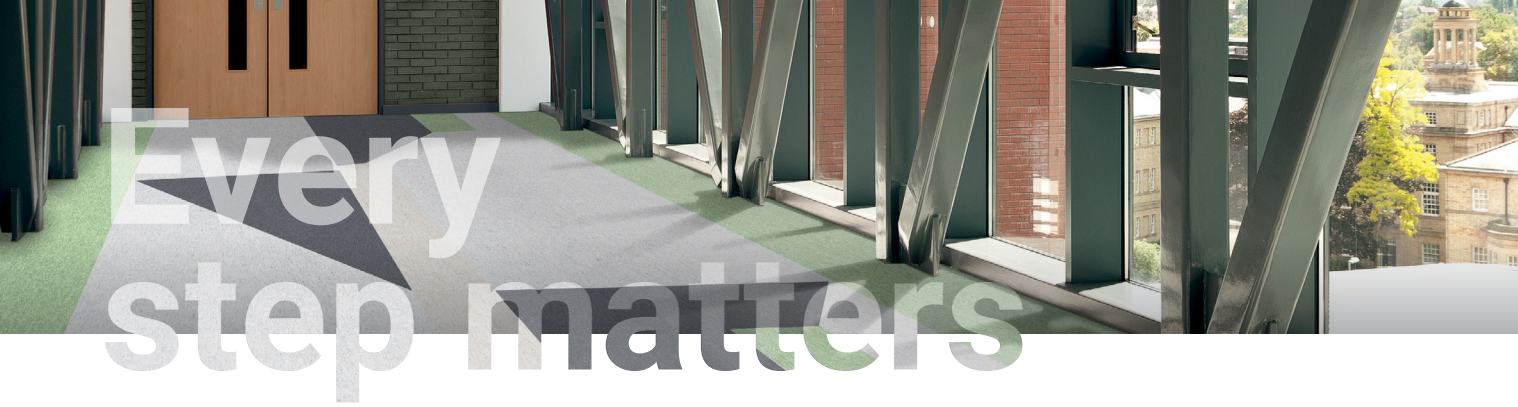

The BrillianceSM Digital Color System puts the entire Tarkett Solution SPECTrum portfolio at your fingertips—no matter where you happen to be working. Within one digital tool, you can save favorite surfaces to project boards, visualize them in a space and order samples. By getting the right color match every time, the tool reduces sample waste and shipping, helping us all design more responsibly and reduce our carbon footprints.

Tarkett's holistic approach to sustainability is woven into the fabric of how we do business and sits at the heart of our day-to-day decision making.

For decades, we've been scrutinizing every detail of our business for its impact on resources like soil, water, air, and climate—because when you're trailblazing a more sustainable future, **every step matters**.

The **proof** is in the numbers.

Circular economy

94%

of our raw materials are third-party assessed for their impact on human and environmental health based on Cradle to Cradle criteria.

69%

of raw materials are abundant, rapidly renewable or recycled.

13

zero-waste-to-landfill manufacturing plants

1.5 million lbs

of flooring recycled in 2023 in North America

Certifications you can trust

2011

started working with EPEA to integrate Cradle to Cradle principles into every facet of our business

2013

first commercial flooring **CERTIFIED asthma & allergy friendly®**

2022

Powerbond® RS is the first soft surface product in the industry to be **CERTIFIED asthma & allergy friendly®**.

Transparency you can trust

100ppm

raw materials content revealed down to 100 parts per million

When most manufacturers reveal raw materials content down to just 1,000 ppm, there's simply no contest.

We've been providing Material Health Statements since 2013 to give you peace of mind about the content of our products.

Healthy impacts

99%

of flooring solutions have low VOC emission levels—10x lower than the most stringent world standards.

100%

ortho-phthalate-free vinyl production; first company to eliminate ortho-phthalates from all products

Global excellence

2010

first flooring manufacturer to join the UN Global Compact

2016

Began reporting to the Carbon Disclosure Project (CDP). In 2023, Tarkett scored A-, the CDP management level.

2020

first assessment by EcoVadis. In 2023, Tarkett's score of 74/100 earned us a Gold medal and placed us in the top 2% of rated companies.

2023

SBTi deemed our target ambition in line with a 1.5°C trajectory, currently the most ambitious designation available through the SBTi process.

Digital services

Our additional design services allow for even more creativity. Want to add a school logo to your floor? No problem. A custom corporate message? Sure. Or maybe you're looking for support in the form of professional renderings to help sell your flooring concept. No matter your need, Tarkett experts are here to help you solve your biggest flooring challenges and deliver personalized solutions you can be proud of. Scan the QR code to start your design services project.

IMAGINATIONS® custom floor design

If you can imagine it, then we can translate it onto your floor. Our IMAGINATIONS Personalized Floor Design program is used for more intricate and detailed designs. Designs are fabricated at our manufacturing facilities, shipped to the job site and inset by the flooring contractor.

Logos, corporate messaging, school mascots, government seals, unique images, or any idea you imagine can become art on a horizontal plane. With our unique line of product platforms, you can use shape, color, and texture to design a floor that will help create an experience and communicate a brand message. Custom cutting can also be used in practical ways, such as showing direction or dividing a space without using physical barriers.

| Tile area per carton | n/a | | | |

Testing

| Technical Data | Standards | iQ Optima | *Static loads greater than 250 psi fall outside of the scope of the ASTM F970 test method. Modified static load testing does not provide information related to the long-term exposure and the residual indentation of an installed floorcovering system which includes the subfloor, adhesive, underlayment, and cementitious patching/leveling compounds. Residual indentation(s) may remain visible in any resilient flooring installation, however, overhead lighting, natural lighting and the application of a gloss floor finish may increase the appearance. |
|-------------------------------|------------------------|---|--|
| Classification | ASTM F1913, ASTM F1700 | Homogeneous vinyl sheet, Solid vinyl tile | |
| Polyurethane Reinforced | ASTM F410 | Yes | |
| Total Thickness | ASTM F386 | 0.080" (2 mm) | |
| Static Load Resistance | ASTM F970 | 250 psi, ≤ 0.005" Modified 2000 psi: ≤ 0.005" * | |
