RE: Maxxon Underlayment, Maxxon Patches, and Maxxon Isolate

To Whom It May Concern:

There is nothing to suggest any incompatibility with Mannington Commercial flooring and adhesives and the above referenced products. Mannington's product and adhesives warranties would not be voided by installation over these products provided all materials are used and installed per published installation guidelines.

Please note that Maxxon is solely responsible for the performance and warranty of their products. Mannington is not responsible for the performance of the underlying Maxxon products or for any failures of Mannington's products that may be caused by Maxxon's products.

Should you have any further questions, please contact our Technical Services Department at 800-241-2262 option 3 or [technicalservice.commercial@mannington.com](mailto:technicalservice.commercial@mannington.com).

Sincerely,

Technical Services Division  
MANNINGTON COMMERCIAL
